

Town and Village of Liberty -- Visioning Exercise

The completion of the Strengths – Weaknesses exercise has given us a basic foundation to build a vision. A vision describes ideal conditions that the comprehensive plan is designed to achieve. This aspirational expression envisions Liberty in 10-15 years.

Please share your vision by describing the future in one-to-two paragraphs. (You can write more if you would like.) In considering the qualities that illustrate this ideal future, you can include a variety of characteristics, relationships, attractions, services, programs, or other elements that best represent the optimal outlook.

Note that one of the weaknesses generated from the previous exercise is ‘Lack of a cohesive vision long-term.’ This is our opportunity to craft this weakness into a primary strength that will help guide this comprehensive plan. Please complete this exercise by the next meeting (now scheduled for April 14) by emailing it to geniuslociplan@gmail.com or bringing to the meeting. Thank you.
